# REFINISHING CABINETS

The PaintPositive step-by-step  
process to transform any cabinetry.

We can transform your kitchen for results beyond your hopes and dreams.

**BEFORE** Years of use and wear quickly age cabinet doors, and the current stain or paint color may be out of style.

**AFTER** The refinished cabinets have a contemporary color that gives the kitchen a refreshed new look.

Refinishing cabinetry is the quickest and most economical way to refresh a kitchen. PaintPositive is skilled, knowledgeable and experienced in cabinet refinishing. We have successfully transformed dated and worn-out cabinets, helping our customers achieve a look .

# Eight steps. One completely new look.

We invest in the highest quality equipment and materials to produce the highest quality final product.

## 1 Protect your home

We take all precautions to protect your home. We cover floors and countertops, seal work-zone in plastic and create airtight plastic barrier.

## 2 Disassemble Cabinets

We disassemble and label every door and drawer specific to its exact location.using the same method every time to ensure organization for reassembly.

## 3 Wash and Degrease

We set up a clean and degrease station in the garage, thoroughly wash and degrease all cabinets, and mask and tape each cabinet box.

## 4 Prep and Prime

We set up a sprayer in central location, double check tape and plastic is still in tact, scuff sand cabinets, vacuum area, wipe with tack cloth, and then Oil Prime cabinets.

Negative Air Machine W/ HEPA Filter, 210W, 115V

**Milesi 2K Waterbased  
Lacquer Paint (HKA-  
11x / HKR-11x)**

## 5 Sand and Vacuum

This step is repeated between each application to maximize results.

## 6 Airless Spray Urethane Application

We use top-of-the-line, state-of-the-art equipment and the highest quality material available. We have continually invested in staying up to date with the latest market updates and trends to provide consistent results.

Contractor PC Airless Spray Gun with RAC X 517 SwitchTip

Low Pressure RAC X LP SwitchTip, 517

**Note | We repeat step 5 between steps 6 and 7**

## 7 Final Coat Urethane

We spray on final urethane coat and calculate and follow proper dry times.

## 8 Reassemble & Clean-up

We have systematically labeled every component of your kitchen, we will now reassemble to ensure proper function and form. PaintPositive will ensure they are leaving you 100% satisfied with your new kitchen project.

To create a beautiful, modern look trust your project to the experts, PaintPositive. We have invested in cabinet-refinishing specific equipment and have a proven, repeatable method that provides consistent results.
